SNOW-CAPPED FRUITCAKE

Giving fruitcake a winter-white coat transforms a humble classic into an upscale dessert. In it is a flavorful array of golden jewels—dried pineapple, pear, and apple; crystallized ginger; golden raisins; and lemon zest. The cake is covered with rolled white fondant and a flurry of hand-cut snowflakes. Enjoying a slice with family offers a reminder: Outdoors, there's a winter wonderland; indoors, the holidays are working their magic.
